

No. of Functional Features Included in the Solution

Date	14 July 2026
Team ID	XXXXXX
Project Name	Smart Lender – AI-Based Loan Approval System
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Registration	Allows new users to create an account	Authentication	Done	High
2	User login	Secure login using username and password	Authentication	Done	High
3	Loan application form	Users enter loan details	Loan module	Done	High
4	Ai loan prediction	Predicts loan approval using ml model	Machine learning	Done	High
5	Dashboard	Displays application details and results	User dashboard	Done	Medium
6	Database storage	Stores user and loan information	Database	Done	Medium
7	Input validation	Validates all user inputs	Backend	Done	Medium
8	Logout	Securely logs out users	Authentication	Done	Low

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	Registration login, loan prediction, dashboard

Additional / Nice-to-Have Features	Responsive UI , password encryption, session Management
Features Tested & Verified	ALL major features tested successfully

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	3	Login page, registration page, dashboard
2	Backend / Logic	3	Loan prediction, validation, business logic
3	Database / Storage	1	User and loan data storage
4	API / Integration	1	Flask backend API
5	Security / Authentication	2	Login authentication, password encryption
